VALEN LIGHT
LED & SOLAR INNOVATION

Introduction

The solar powered VERTAIC Bollard is an all-in-one, off grid lighting system. Its unique V-Panel technology allows for vandal resistance and highly efficient energy production. The VERTAIC Bollard effectively illuminates pathways with an unmatched architectural aesthetic.

Location

All products are designed to function with respect to their regional solar irradiation and climate. The city that is closest in proximity to your location will determine your area's solar potential. Use the VERTAIC Bollard Specification Builder to select your product.

Advantages

Direct Burial - Instant Installation.
Installs in approximately 15-30 minutes per unit with direct burial configuration.

Performance Data

Lumen values are from photometric tests. Data is considered to be representative of the configurations shown, with the tolerances allowed by Lighting Facts. Actual performance may vary as a result of end-user environment and application.
