- A. Ordinance Approving A Special Use Permit For A Planned Unit Development, Amending Chapters 4 And 7 Of The Village Of Lake Zurich Zoning Code And Granting Special Use Permit Approval For Various Uses At The Former Bank Of America Property At 23 And 35 West Main Street And 22 And 28 Park Avenue (Assign Ord. #2020-07-372) (Trustee Beaudoin)

Summary: Vela Carina LLC, represented by Don and Cindy Malin, are the current owners of the subject property and have filed a zoning application for a proposed redevelopment. They are proposing to demolish the interior and reconfigure it as a multi-tenant commercial retail building. The applicants are proposing to redevelop the property with a variety of approved special uses. The property is located within the B-2 Central Business District, the DR Downtown Redevelopment Overlay District, and the R-5 Single-Family Residential District.

The applicants are requesting Zoning Code text amendments to allow for the land use of theatrical productions (not including motion picture movies) and drive-through facilities accessory to permitted eating places. Other special uses requested for approval include commercial photography and commercial art / graphic design, micro-brewery and tasting rooms, salon / spa, outdoor seating, and live entertainment including outdoor entertainment such as outdoor lawn bowling, volleyball, bocce ball courts, shuffle board courts, and miniature golf.

The Planning and Zoning Commission held a virtual public hearing on May 20, 2020 to consider this zoning application and voted 7-0 in favor of recommending approval of the project.

Recommended Action: A motion to approve Ordinance #2020-07-372 Approving a Special Use Permit for a Planned Unit Development, Amending Chapters 4 and 7 of the Village of Lake Zurich Zoning Code and Granting Special Use Permit Approval for Various Uses at the Former Bank of America Property at 23 and 35 West Main Street and 22 and 28 Park Avenue.

- B. Courtesy Review For Proposed Redevelopment Of 265 North Rand Road With A New Building Containing A Restaurant With Outdoor Seating On A Portion Of The Lower Level And Two Resident Units On The 2nd Floor (Trustee Beaudoin)

Summary: Mr. Solowiej is proposing the redevelopment of the property at 265 North Rand Road, commonly referred to as "Joe's Barbershop." This property has remained vacant for years and has been marketed since early 2020 for various commercial uses. The property is currently zoned with the R-5 Single-Family Residential District and is surrounded by residential uses to the north, east and south. The development proposal involves a change in zoning use and an increase in the intensity of use of the property.

The developer proposes to demolish the existing building and redevelop the site with a new building containing a restaurant/deli with outdoor seating on a portion of the lower level and two 2nd floor residential units above. The new 2-story, 3,325 square foot masonry building is proposed to be located outside of any required yards on the property – 50 feet from Rand Road, and 30 feet from Sunrise Court. The patio will be located on the south side of the building, and be partially covered by the 2nd story portion of the building. The project will provide for 15 off-street parking spaces on the property.

The developer has indicated that if positive feedback on the proposed development is provided by the Village Board, they will move forward with a formal application for a future public hearing at the Planning and Zoning Commission.

Recommended Action: This is a non-voting item at this time. The developer and Staff seek to understand the Village Board's preferences towards the proposed development and highlight any areas of concern to the applicant.

C. Presentation From Prairieland Disposal Of Lake Barrington On Solid Waste Hauling Contract Proposal (Trustee Spacone)

Summary: The Village's existing contract with Waste Management for solid waste hauling services is expiring on August 31, 2020 after an extension on the original contract from 2008. To gauge the competitiveness of the solid waste hauling market, on February 7, 2020 the Village issued a multi-jurisdictional request for proposals for solid waste collection services in partnership with Wauconda, Island Lake, Tower Lakes, and Deer Park. Four proposals were received on May 27, 2020.

After much review and discussion, the villages of Lake Zurich and Wauconda are recommending a joint-municipal contract with Prairieland Disposal. Deer Park has decided to extend their existing contract with Groot. Island Lake and Tower Lakes have decided to pursue individual contracts directly with Prairieland Disposal. Lake Zurich and Wauconda anticipate future strategic advantages that come from a joint-contract between both towns, which together comprise over 11,000 housing units and a combined population of over 33,000 residents.

Prairieland Disposal is a family-owned company based out of Lake Barrington that services Lake, McHenry, Cook, and Boone counties. A few of their existing municipal clients include Barrington Hills, McHenry, Crystal Lake, Richmond, Fox River Grove, and Barrington, all of which have provided highly positive references on the companies' customer service and reliability.

In regards to Lake Zurich specifically, the proposal from Prairieland was the most competitive package. It is the only proposal that had prices decreasing from existing Lake Zurich rates. All other services stay the same including an eight week leaf vacuuming program beginning in mid-October and once-per-week unlimited yard waste collection with no stickers needed from April 1 to mid-December. Prairieland is also offering a 10% senior discount for all customers 65 years of age or older. The company is also offering a service enhancement for Lake Zurich residents in the form of an electronic waste curbside collection event free of charge for residents once per year.

Prairieland is well equipped to handle a transition this autumn in regards to the curbside collection of refuse, recycling, yard waste, food organics, and electronics as well as a local drop-off center in Lake Barrington. Prairieland Vice President Steve Schweinsberg will provide an introduction and review of their proposal for Lake Zurich.

Recommended Action: This is a non-voting item at this time. Pending Village Board direction, a formal vote on a waste hauling contract with Prairieland can be expected at the Village Board meeting on August 3, 2020.

D. Presentation Of Results And Highlights From Phase 2 Community Engagement Effort On Future Lake Zurich Investment (Mayor Poynton)

Summary: In recent years, the Village has made strong progress sustaining and improving our financial sustainability while continuing to better the community with enhancements to public safety, infrastructure investment, new business attraction, and community events. However, there are several long-term infrastructure projects facing the Village that necessitate a larger discussion.

At the beginning on March 2020, the Village Board approved an agreement with EO Sullivan to facilitate community engagement efforts regarding future building options and various funding mechanisms for the Paulus Park Barn and Fire Station #1 on Buesching Road, two municipal facilities that require attention and investment.

During June 2020, the Village conducted multiple virtual community engagement sessions. 130 community members participated with 62 providing written responses. EO Sullivan will present the results of the Phase 2 engagement effort and provide a summary of key highlights and next steps.

Recommended Action: This is a non-voting item. Staff and consultants seek to engage the Board on feedback results and receive input for the remaining phases of the project.
